Characteristics:
. Uses Eco- solvent ink.
. Smallest droplet is 12PL. It is next to indoor printers, but the cost is much better than it.
. Constant pressure ink supplying, constant level in ink cartridges and unique screw adjustment make liquid level adjustment accuracy in1mm.
. One pole and roller feed system solve wrong position of media. It adopts media preheating, printing panel heating and drying after printing three section heating mode, then improve printing of PVC materials.
. Providing 47.2"*94.5" (1200*2400mm) sheet printing frame could be used for printing on boards in high precision.
. AIO human emergence control platform includes automatically jumping blank, correcting step in printing, two-ways parameters, automatically copies a single figure, make-up, wave eclosion and linear eclosion function.

Application:
Stop sign light boxes, display panels PS board, car advertising, wallpaper printing
