Overview

- . 15"x15" Telfon coated heat platen.
- . Spring system added for even pressure.
- . Real-time display of temperature condition with automatic alarm.
- . Over-center pressure adjustment for easily to adjust the pressure.
- . CE approved.

Description:

This type of Heat Press Machine is stable and durable, which has the advantages of the former heat press machines with the new developed style. The improved outlook is more attractive. The four corners of the heat press are all curved to avoid getting hurt by the sharp corners during carrying. The base of the machine is more stable. You can put it on the table top or fix it onto the table top by screws. The highlight of the heat transfer machine is that it uses improved structure of pressure to ensure the evenness of pressing, thus enables all kinds of transferring with high requirement.

Notice: Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it's not in stock. Also, you can customize the color you like but need extra cost and large order.
