Overview

- Swing-away style, energy and manpower saving.
- Two separate digital controllers for an easier view.
- Accurate time and temperature display.
- With a convenient head-shaking performance, there is enough room to place the t-shirts.
- Heating is evenly distributed to guarantee a good work.
- Most customers appreciate the delicate workmanship.

Descriptions:

This heat press machine has a head-shaking style for a convenient use. The heating panel can easily be put and still have enough room to place the transferred material on the working table. Two separate digital controllers show the exact time and temperature, making it easy to review them. Great value is generated due to fine workmanship, such as a silicon pad, a fine heating panel, an innovative machinery structure and a delicate exterior appearance.

Applications:

This heat press machine is suitable for transferring images to a table cloth, t-shirts, bags, pants and similar flat surfaces made of textile, knitting, non-woven, chemical fiber or cotton materials, metal sheets, adornments, etc.

Notice:

The machine can be purchased in a variety of colors, depending on availability. Color can be custom ordered, although a waiting period and an additional charge should be taken into consideration. The case in which the machine is stored is also available in different colors, which can be chosen according to your preference, as long as they are in stock. This applies only to bulk orders.
