Overview

Main Function: Scan/engrave

Application: Mainly used for Ad. shop and stamp carving store. The [laser stamp engraver](#) uses a beam of light as the engraving tool, so no part of the machinery actually touches the material being engraved. You don't need a special system to hold down your engraving material.

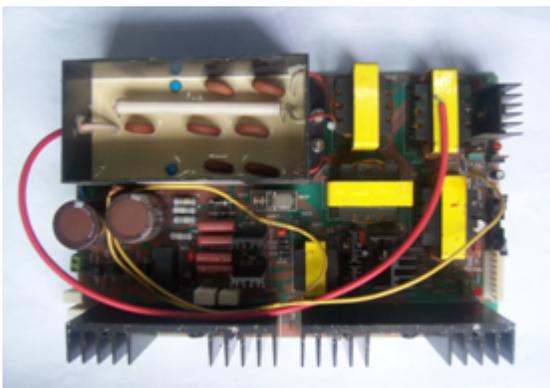

Materials that can be engraved:

Engraving stamps: Horn, organic glass, atom, plastic and rubber stamps.

Engraving graphs: Engraving name, specification, type and other words or graphs on double color board, sign plate and all other kinds of small format handicraft or sign plate materials.

Product Highlights:

- **Red light indicator, automatic focus and up-down table. Support gradient carving.**
- Two sets of software with the machine, CSACE and Printing Driver. CSACE can input BMP, PLT file format design, then edit and output them; Print Driver can directly output many file format in Windows system, like Photoshop, CorelDraw, AutoCAD, etc.
- Power Source is the core technology, this [laser engraver](#) adopts original alterable internal resistance mode instead of traditional PWM pulse width modulation mode. New power source mode has more powerful internal resistance, higher stability and higher reliability, which can raise good ballast effect.

Power Source

- The engraved words and graphs do not fade, exist permanently and can avoid being forged effectively..

Note: If you want to do simple engraving work, and your engraving area is within 400 x 240mm (15.8" x 9.45"), you can choose this [Mini. laser engraver](#).

Spare Parts:

Glass laser tube 25W: +\$195

Reflective mirror: +\$15

Focus lens: +\$96

Optional Device:

Glass laser tube 40W: +\$268

Warranty and aftersales service:

Laser tube 2000 hours' working time

One year warranty except for the spare parts.

24-hour technical service support by email or calling.

User-friendly English manual for machine using and maintenance.

Samples:

Details

Engraving Precision	Chinese characters: 2mm (0.079"), English
Max. Engraving Speed	150mm/s (5.9")
Effective Engraving Area	400 x 240mm (15.8" x 9.45")
Laser Power	CO2 glass tube 25W
Support Image Format	bmp, plt

Specifications

Model	LEM-T40
Max. Engraving Area	15.8" x 9.45" (400 x 240mm)
Laser Power	CO2 glass tube 25W
Max. Engraving Speed	5.9"/s (150mm)
Resolution	?1000dpi (1000dpi is the best)
Min. Engraving Characters Size	Chinese characters 0.079" (2mm), English letters 0.059" (1.5mm)
Positioning Precision	0.0009" (0.025mm)
Whole Power	320/450W
Cooling Way	Water cooling and protection system
Support Image Format	BMP, PLT
Support Software	All softwares that can output BMP, PLT format files
Engraving Software	CSACE and print driver
Power Support	AC 220V/50Hz
Interface	LPT
Standard Equipment	Exhaust fan, exhaust pipe, water pump, air pump
Spare Parts	Reflective mirror, lens, laser tube
Machine Dimensions	32" x 32" x 17" (800 x 800 x 430mm)
Machine Weight	50kg
Package	Fumigation free package
Packing Size	43" x 43" x 24" (1100 x 1100 x 600mm)
Gross Weight	90kg
