Overview

Features:

- . New upgrade version.
- . Five heating mats for highly efficient working.
- . Fully digital temperature control.
- . Automatic digital timer.
- . CE approved.

Advantages:

- . High quality heating elements.
- . Individual controller for each heating element.
- . Easy pressure adjustment.
- . Solid steel welded framework.

Benefits:

- . 5 mugs imprint at one time.
- . It's easier to change heating element.
- . Slot on the side for easier to carry.

Description:

The 5 cup mug heat transfer machine is high efficient for transferring mugs. It can be used at malls, flea markets, shows, and so on. Five heating mats could work at the same time with durable performance, which greatly saves your time. The timer and temperature controller integrated on one display for easy check. You can transfer any beautiful images you like to the ceramic and metal cups by this cup heat machine. Also you can adjust the cup mug wrap according to the sizes of cups.

Warm Tips:

- . Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it's not in stock. Also, you can customize the color you like but need extra cost and large order.

Application:

This 5 mug cup heat press machine can transfer any personalized image you like to the ceramic mugs, just like 11oz mugs.

Heat Platen Test:

Each Single Copper sheathed heating rod is tested before it is cast in an aluminum alloy or Mica Sheet. These heating rods are comparable to those found in industrial ovens that heat up quickly, work efficiently and last many years.

Finished Machine Test:

- 1) Turn on the machine, let it heating up to 200 degree Celsius.
- 2) Keep the temperature stay at 200 degree Celsius for at least half an hour.

Best air on earth.

Aquate Oxygen

Fresh. Clean.
