Overview

Product Description:

The CW-6100 is a compact industrial chiller designed for cooling various industrial processes. It features a robust stainless steel construction and a fan-cooled condenser. The unit is equipped with a digital display and control panel for easy operation. It is suitable for applications requiring precise temperature control in environments ranging from laboratories to manufacturing plants.

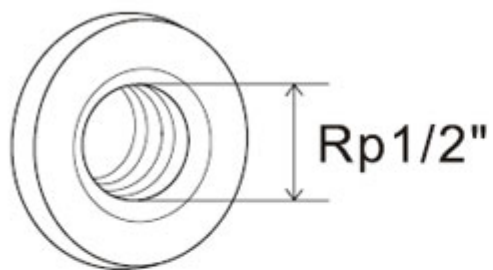

Technical Specifications:

- Cooling Capacity: 4200W;
- Temperature Control Range: $\pm 0.5^{\circ}\text{C}$;
- 2 Year Warranty: The CW-6100 is covered by a 2-year warranty, ensuring long-term reliability and performance.
- Energy Efficiency: The unit is designed with energy-saving features, including a variable speed compressor and a fan speed control system.
- Safety Features: The CW-6100 includes multiple safety features, such as over-temperature protection and a safety lockout mechanism.
- Compliance: The unit complies with CE and RoHS standards, ensuring it is safe for use in various industrial environments.
- Easy Maintenance: The CW-6100 is designed for easy maintenance, with accessible filters and a simple service procedure.

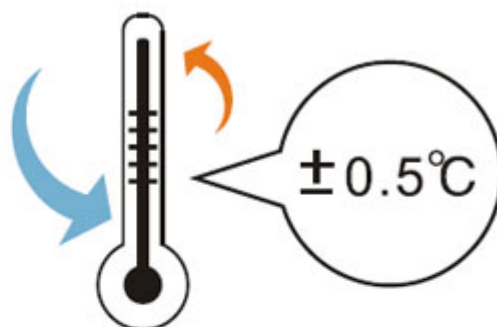

Package:

Inlet and outlet
