## Equipment and technology

### *Digital Jet Printing:*

*It is used mainly to make flags for factory, office, tour guide, government, school class, signal, dragon (flag), dragon boat, various countries, beach, vehicle, activity (banners), signing, negotiation or meetings, colorful banners, street, marine vessels, military and army, etc. Its advantages are beautiful in color and possible to make any color gradually changing.*

### ***Fabric Details***

*The polyester pongees specially for digital jet printing, for single surface printing of double-side infiltration, for which it solves the traditional printing problems in coloring limit. No matter how many colors including changing colors on flag, it can always print out the real colors. The double-side infiltration effect of digital jet printing has tiny color difference on its front and back side (both sides' color difference please see pictures for which it is related to the flag's own colors, and can satisfy 99% of customers. We suggest the buyers who have very high requirements for colors without color difference do not buy, or contact us to print samples firstly.*
