SMD 2835 Waterproof LED Module (3 LED Chips with Optical Lens, 0.72W, L70 x W16 x H7mm)designed for Internal Illumination Of Signs

Description:

Target at the middle and end light sources used on identification;adopting the chips manufactured by famous big factories,high brightness,large emitting angle,low thermal resistance, and low light decay,high uniformity of the emitting color,using pure copper wire and designing by low thermal resistance to ensure the steady current and lower the heat; reasonable circuit design, convenient install and wiring regulation, life span over 30000 hours, power supply at constant 12V DC; safety, energy saving and economical power 2835SMD LEDs 3 LED Chips with Optical Lens, 170 Degree, beam pattern, Double sided adhesive foam tape, 3mm gap between each module.

60W Waterproof Transformer Driver Power Supply

Description:

Power supply for 12VDC LED lights,JK-60W-WF 12VDC 60Watts waterproof power supplies.100-240AC input, 12VDC output, stripped and tinned. Completely sealed aluminum housing, IP67 rated.

Universal AC input/Full range

Protections: SCP/OCP/OVP

Plastic case, Fully encapsulated with IP67 level

Constant output current

Suitable for LED lighting and moving sign applications
