## Description:

### FASHION

It is the latest design of international exhibit design master and be produced with the advanced processing equipments. It can be made into many rich and fashionable styles.

### LIGHT WEIGHT

The weight is only one fifth compared with traditional pop up display products.

### QUICK AND CONVENIENT

Aluminum tube system makes it very easy to assemble. Tension fabric pulls graphics tight and secures with zipper. Safety, quick and simple, no tools needed.

### ECONOMIC

Aluminum structure and removable fabric graphic can be used for many times, it is easy to transport and conforms to the international low carbon policy.

### ENVIRONMENTAL PROTECTION

High quality sublimation heat press processing makes the graphic very vividly and waterproof without any chemical odor which will become the mainstream of advertising industry in future.

- The aluminum tube is easy to set up and take down, and less than 10 minutes for people without experience,

please see our set up video!

- Pillow case stretch fabric graphic fits snugly over the tube frame.
- Attractive smooth seamless graphic marketing display.
- Light weight for convenient transport and low cost shipping.
- Attractive wheeled travel bag is included.
- Available with double sided graphic.

**Fabric Tension Displays can evolve your trade show booth into a successful marketing tool. One of our trade show professionals can answer your questions and help you create the marketing display you have always needed.**

## Process

### Dye-sublimation Process:

1. Large Format Printing

2. Heat Press Transfer

3. Special Sewing Workshop

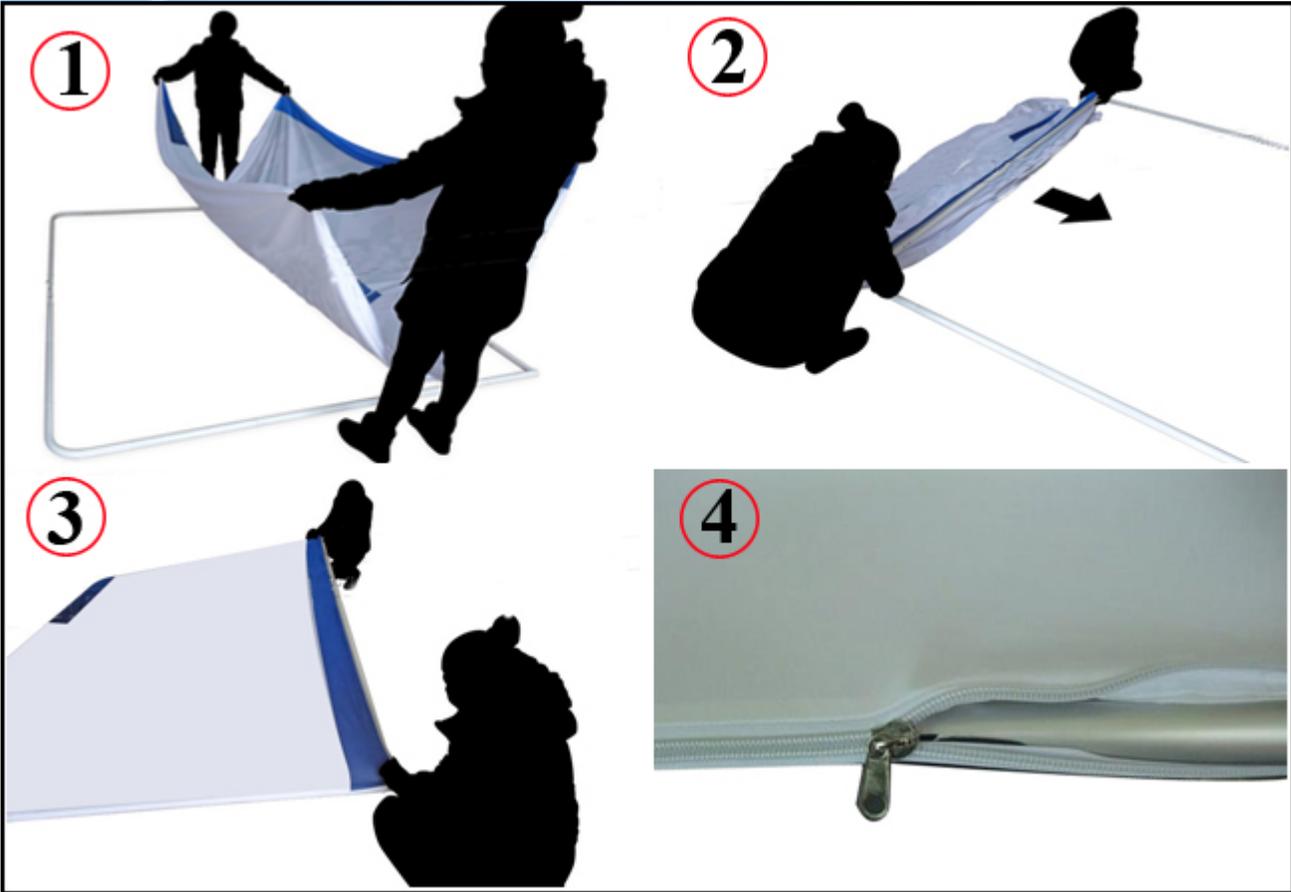

### Tension Fabric Materials:

### Features & Benefits:

This booth display is a great addition to any trade show presentation. The booth display, also known as banner stands, is printed from a user's submitted layouts. The custom signage goes through a dye-sublimation printing process on high stretch fabric. The resolution is 720 DPI, which results in a brightly colored and detailed exhibit. The stretchy material eliminates wrinkles when pulled taut. This booth display is constructed from an aluminum tube frame that sets up with a snap of a button. The trade show backdrop is therefore incredibly portable due to the knockdown design.

## Usages
