Overview

- Can not be layered.
- Brick is CPSIA Certified.

Description:

This foil heat transfer vinyl with metallic look is very fashion. A great way of doing this is by adding "Bling" to your outfits. One of the best ways to bling out your wardrobe is with the new EasyWeed Foil. EasyWeed Foil is a thin shiny material that shares the same properties as our regular EasyWeed. You can use the Heat Press Trick (heating the platen and weeding the design on the heated surface) for smooth weeding.

EasyWeed Foil is CPSIA Certified, so it's perfect for decorating children's clothing and accessories.
