

SMD 2835 Waterproof LED Module (1 LED Chips, White Light 1.2W, L41x W27x H10mm) for Double-sided Lightbox

Item Code: LEDM-GKL-MJW154B

FOB Price: **???.78/??.**

Mini Order: 100 ??s

Shipping Weight: ★★★★★

Average Rating: 0.0lb (0.016kg)

Overview

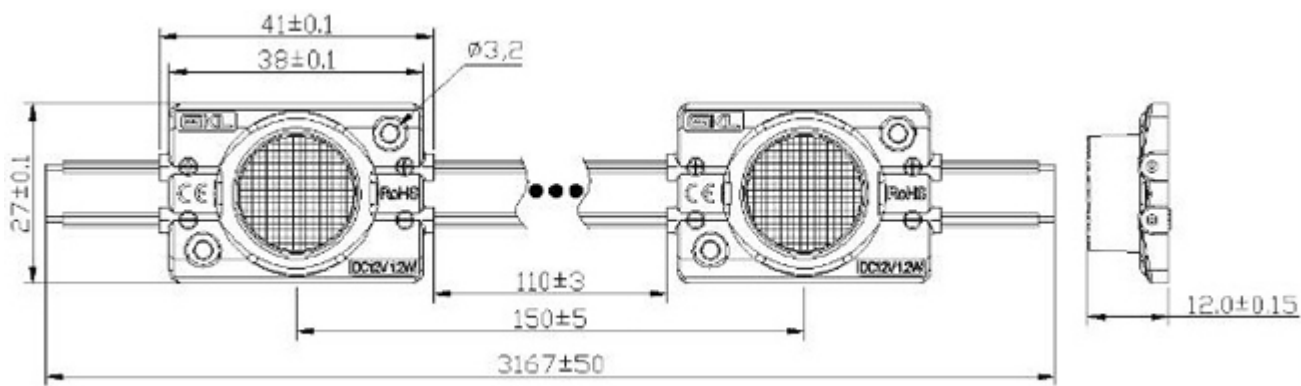

Features:

- High brightness SMD 2835 leds with heat sink.
- Side lighting module, 45°*15 degree beam angle. High light transmittance Optical lens.
- Moisture-proof, water-proof, dust proof and impact resistance.
- Professional multi-optic design, best brightness, no bright dots. Lighting average over normal modules.
- IP65 protection level.
- Nice structure and injection molding process. Remarkable multiple optic technique.
- RoHS standard of all raw materials.
- Long lifespan and low failure rate.

Application:

- Advertisement signs the double-sided light box.
- LOGO & Letters the double-sided light box.
- Advertisement Light boxes and the double-sided light box.
- Landscape, commercial, home and stage decoration.

Detail:

Specifications

Model	LEDM-GKL-MFW154B
Module Size	L41*W27*H10mm
LED	1 pcs 2835 SMD LED
Drive Type	Constant current drive
Input Voltage	DC12V
Beam Angle	45*15 degree
Power(single module)	1.2W
Luminous Flux	110lm
Color Rendering Index	70
Emitting Color	Natural white/Cool white
Structure & Material	Aluminum PCB. PVC cover
Max Connection Qty(PCS)	20(typ)
IP Level	IP65
Working Temperature	-20~+45°C
Stock Temperature	-30~+60°C
Warranty	3years
