3.2M CJ4000 Series Solvent Printer

Item Code: LFIP-JH-CJ4000

|	
FOB Price:	**$27,000/set**
Mini Order:	1 set
Shipping Weight:	★★★☆☆
Average Rating:	3542.0lb (1610kg)

Overview

Characteristics:

. DC24V low voltage heating function ensures smooth printing in low temperature.

. 400W high-power AC servo control system means long life, fast response, high accuracy and ensure equipment's work stability.

. cleaning includes withdrawing cleaning and monochromatic pressure cleaning. A key refilling function makes printhead's maintenance easy and convenient.

. With super wide printing platform, the machine can load more heads and easy upgraded.

. Independent moisturizing ink panel is used for avoiding the string of ink. moisturizing handle limit switch is good for avoiding wrong operation which may damage printhead.

. LED lighting system brings more convenience during printing and for printhead status suspect.

. Platform is with media adsorption function. Adsorption fans is in an independent room. You could adjust adsorption force by hand for media in different thickness.

. AIO human emergence control platform includes automatical jumping blank, correcting step in printing, two-ways parameters, automatically copies a single figure, make-up, wave eclosion and linear eclosion function.

. Detecting printhead's temperature and adjusting voltage automatically improves the printhead's stability.

. Three stops constant temperature heating system,flash drying,better ink absorption,higher precision and powerful working efficiency.

Description:
LFIP-JH-CJ4000 Series are 10.5' (3.2m) large format printers which is the most valuable light printer, durable and productive printer.It can reach 100 sqm/hour by 3pass production model, suiable for large quantity production.

Aplication:
Building body advertising, roadside stop sign light box, advertising Optimus Prime, car ads.

Details

Colors	KCMY/KCMYLCLM
Print Speed	180X540 3pass 65m²/hr
Maximum Resolution	720dpi
Max Media Width	126.8" (3220mm)
Ink type	Solvent Inks
Print head	SPT510_35PL
Max print width	126.0" (3200mm)

Specifications

Model	CJ4306	CJ4308
Printhead	SPT510_35PL	
No of Printheads	6	8
Printhead Sequency	1×6	2×4

Print Width		126.0" (3200mm)	
Media Width		126.8" (3220mm)	
Print speed	Print mode	Speed	
	High speed	240X540 3pass 56m²/hr	240X540 2pass 112m²/hr
	Middle speed	240X720 4pass 41m²/hr	240X720 3pass 82m²/hr
	Standard speed	360X540 3pass 37m²/hr	360X540 4pass 74m²/hr
Ink Type	Ink Type	Solvent Ink	
	Color	KCMYLcLm	KCMY
Ink supply system		Auto consistant ink suppy, ink detective, failure notice.	
Cleaning method		Singel color positive flush(with pressure protection), auto flushing & head moisturing	
RIP software		MainTop(Photoprint optional)	
Interface		USB2.0	
Printing assistant system	Auto feeding & take up system	Media detective via infrared,memorial flex-feed & take-up system	
	Heating system	Preheating, middle heating, rear heating	
	Head heating	Low voltage head consistant-temperature heating (DC24V)	
	Height of the tray	2~5mm Distance to the printing platform, adjustable	
	Other functions	One key positive-pressure ink injecting,adjustable force of media being absopted to platform, anti-warp cleaning,Fuselage horizontal adjustment function, heating fan(optional)/drying fan, anti-splash board, er	
Printer info	Voltage	AC220V 50/60HZ (AC110V 50/60HZ is optional)	
	Power	Printing: 500W Platfrom `heating` :Front heating 1000W/Middle heating 1000WW/Back heating 1000W	
	Working environment	Normal temperature: 22~28? Himidity: 40%~70%RH	
	Printer dimensins	190.6"×39.4"×52.8" (4840×1000×1340mm) 20.5±0.6lb (520±15kg)	
	Shipping dimensins	206.0"×41.0"×58.3" (5230×1040×1480mm) 29.1±0.6lb (740±15kg)
