Overview

Feature:

1. All aluminum alloy metal shell, high strength, baking paint or sandblasting oxidation treatment
2. The luminaire itself is waterproof IP65 and can be installed directly in the open air.
3. Heat conduction tube and air cooling technology keep the chip cool at all times, maximize the chip illumination, and greatly delay the chip life.
4. CREE ultra large power LED chip
5. The 5 slice wide angle lens has a clear and natural image, a large imaging length of 50%, and an imaging area of 1 times.
6. The projection direction of the luminaire can be adjusted arbitrarily
7. A pattern can be projected, and the projection content can be customized, and the pattern can be changed manually.
