### Overview

**Application:**

After printing finishing equipment. Available for photographic, advertising and copy shops to do lamination work, adding protective layer on books cover, photography, color pages, documents, charts, drawings, indoor advertising products, etc.  
Applicable laminating medium: Photopaper, PP, self adhesive PP, backlit film or transparent film.

**Functional characteristics:**

Both, cold and hot, single or double sides hot laminator.  
The top and lower roller can heated separately; both rollers are made of silicon.  
Easy operation; the speed and temperature can be adjustable.  
Adding a protective layer on your picture, this makes image brighter and keep it for longer time.

**Note:**

If you use 42.5" (1080mm) width hot laminating film for double sides laminating and mounting, this mutli-fuctional hot laminator is your best choice.

### Details

Heating Method	Infrared heating lamp
