### Overview

#### Acrylic Bending Machine:

**For non-metal materials.**  
**Automatic and manual functions.**

#### Applications:

The Acrylic bending machine is suitable for bending non-metal materials, such as acrylic, PVC, PE, PS, ABS, PP, etc.

#### Features:

- . Automatic and manual function with CNC operations.
- . Automatic function to bend the sheet.
- . Softening crevice can be adjusted according to the thickness of plate.
- . The heating plate can be fixed avoiding deformation.
- . The Acrylic Bending Machine has an infrared heating system to prolong the lifespan for more time rather than the hot furnace filament.
- . The temperature and working voltage can be adjusted according to the material and thickness.
- . Water circulation protects the configuration and the overheating alarm temperature ensures the safety of the machine.
- . The current package protects the equipment.
- . Bending acrylic support for PVC, PE, PS, ABS, PP and more.
- . Thickness range ending 0.8mm to 6.00mm(there is no need to cut a slot on the sheet)  
6.00mm to 20.00mm(there is need to cut a slot on the sheet)

#### Warranty and after sales services:

- One year of warranty except the spare parts.
- 24 hours technical support by mail or phone.
- User friendly English manual on how to use the machine and accomplish the maintenance.

#### Samples:

## Details

Main Application	Vacuum forming
------------------	----------------

## Specifications

Specifications	
<b>Model</b>	<b>ABM-SB-1200A</b>
Angle	30°--180° (0-180° for option)
Overall Length	1680mm
Overall Width	440mm
Bending Thickness	0.8mm~~20mm
Overall Height	1100mm
Working Length	1200mm
Power	6KW (Working power 2Kw)
Machine Dimension	1680x440x1100mm
Machine Weight	140kg
Package	Fumigation free package
Packing Size	1810x650x1410mm
Gross Weight	190kg
