### Overview

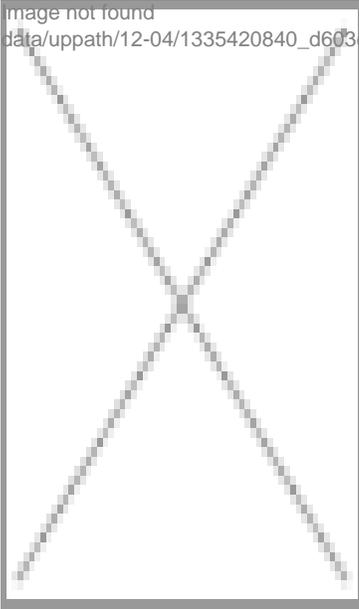

- **Concise appearance, elegant frame and small occupation of space**
- **Easy to set up and take down**
- **High quality and low price**
- **Extra stable tripod base**
- **Price includes a nylon carrying bag**
- **Material: aluminum with plastic connectors**

This exclusive high quality banner is designed to give a contemporary, fashionable look. The carbon fiber design makes this banner lightweight and durable. Another unique feature of this stand is that it can accommodate different width banners. The tripod base makes it extremely stable.

Banner display stands that tilt back toward the top do not have the same effect as a perfectly vertical banner. Banner stands that hold printed banners in a perfectly vertical position have a stronger presence than those that tilt back.

#### **Application:**

Great for trade shows, point of purchase, exhibitions and conventions.
