Overview

Feature:

- 7.5ft curved pop-up display with self-locking connections. Graphic are installed on the magnetic panel to combine the whole unit.

Includes:

- Custom printed graphics on PVC boards (Include end caps)
- Curved aluminum frame with selflocking connections
- 6 magnet bars
- Hard-plastic case

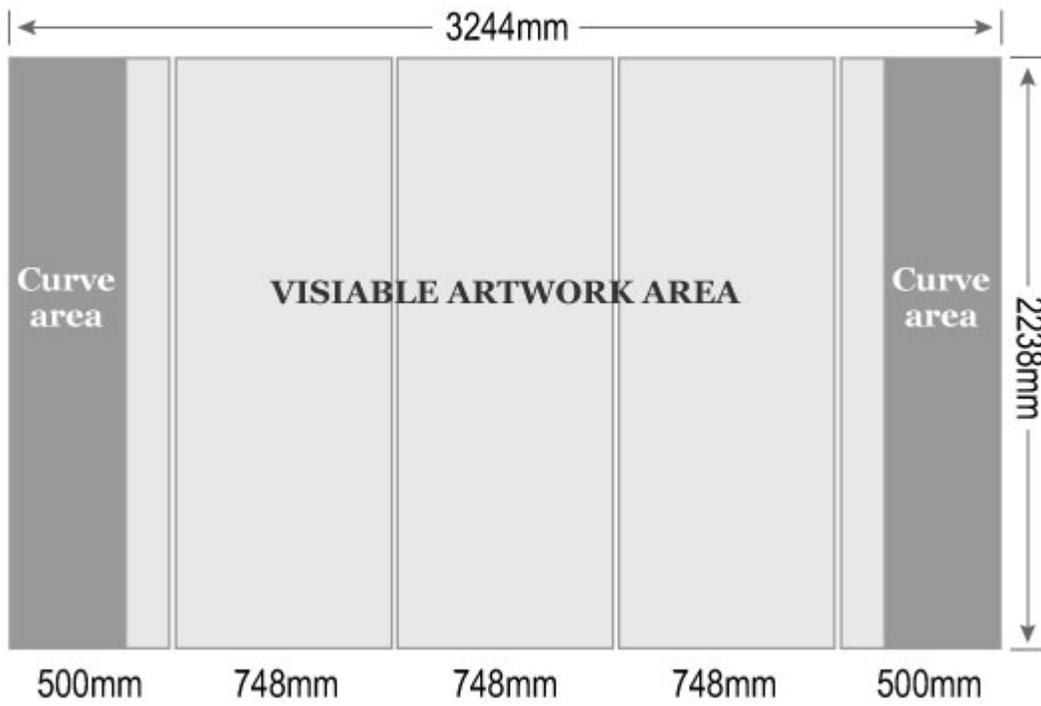

Description:

The trade show display is an attractive mural backdrop for exhibit booths. The 7.5ft wide area is perfect for extensive images and messages. This pop-up display is easy to assemble. Users extend the banner simply by pulling it. The display frame is latched in place after the PC hooks are buckled. The graphic is installed into the brushed aluminum frames using a 3-piece magnetic bar and magnetic tape. Printed on knitted polyester with a 720 dpi resolution, your custom graphic will attract the attention to your booth. This pop-up exhibit includes a molded hard-plastic case. The trade show display case features built-in wheels for easy transportation of the booth elements. The carrying case makes this unit perfect for those users on-the-go.

Application:

This pop-up display is suitable for different types of exhibitions, conventions, trade fairs and promotion activities.

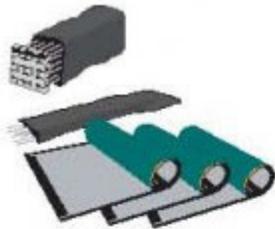

7.5ft Curved Pop Up Display-Selflocking Connections

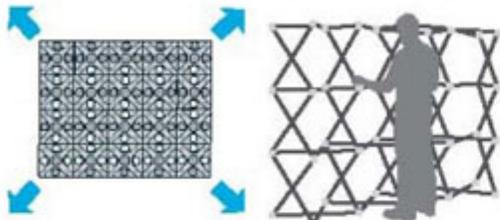

POP UP SYSTEM - SET UP INSTRUCTIONS

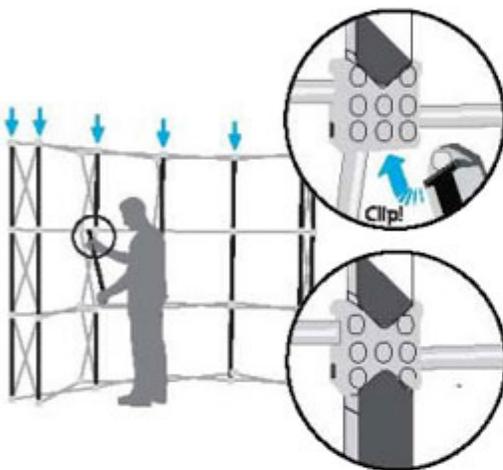

- 1, You will find all the needed components in the carrying case

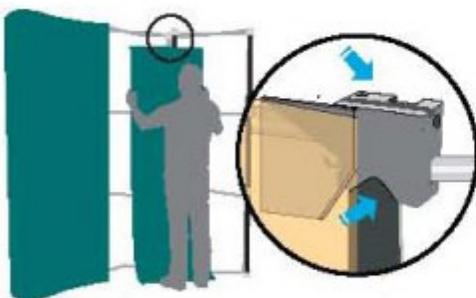

- 2, Remove frame, magnetic bars and the graphic panels from the carrying case

- 3, Place the frame on the floor with hubs with graphic hangers facing up and towards you. Grasp frame scissors and lift to expand frame

- 4, Apply the bars to all vertical quadrants on front side of the frame and to each end on back side of the frame. For a double sided frame, apply the bars also on the back side of the frame.

- 5, Hang the graphic panels on the top hub-hangers letting panels attach to bars. Do the same on both end-caps of the frame.

- 6, Close the transport case, put the black table top
