Overview

Main Function: Scan/engrave

Application: Mainly used for stamp carving store and Ad. shop. The [laser stamp engraver](#) uses a beam of light as the engraving tool, so no part of the machinery physically touching the material being engraved. You don't need a special system to hold down your [engraving material](#).

Materials that can be engraved:

Engraving stamps: Horn, organic glass, atom, plastic and rubber stamps.

Engraving graphs: Engraving name, specification, type and other words or graphs on double color board, sign plate and all other kinds of small format handicraft or sign plate materials.

Products Highlights:

.New mechanical construction, larger working area, longer service life, automatic lifting table, fine quality, and high efficiency. The engraved words and graphs do not fade, exist permanently and can avoid being forged effectively.

.Power Source is the core technology, this [laser engraver](#) adopts original alterable internal resistance mode instead of traditional PWM pulse width modulation mode.

.New power source mode has more powerful internal resistance, higher stability and higher reliability, which can raise good ballast effect.

Note: If you want to do simple engraving work, especially for stamp carving, and your engraving area is within (240 x 250mm)(9.45" x 9.8"), you can choose this Mini. laser engraver.

Spare Parts:

- Glass laser tube 25W: +\$160
- Reflective mirror: +\$10
- Focus lens : +\$90

Guarantee & Aftersales Service:

- Laser tube 2000 hours' working time
- Comprehensive guarantee for one year except the spare parts
- 24-hour technical support by email or calling
- User-friendly English manual for machine using and maintaining

Details

Engraving Precision	Chinese characters 2mm (0.079"), English letters
Max. Engraving Speed	150mm/s (5.9")
Effective Engraving Area	240*250mm (9.45"*9.8")
Laser Power	Glass tube 25W

Specifications

Model	LEM-K25
Max. Engraving Area	240 x 250mm (9.45" x 9.8")
Laser Power	CO2 glass tube 25W
Engraving Speed	150mm/s (5.9")
Resolution	?1000dpi (1000dpi is the best)

Min. Engraving Characters Size	Chinese characters 2mm (0.079"), English letters 1.5mm (0.059")
Positioning Precision	0.025mm(0.0009")
Whole Power	320/450W
Cooling Way	Water cooling and protection system
Support Image Format	BMP
Support Software	All softwares that can output BMP format files
Engraving Software	Special stamp carving software
Power Support	AC 220V/50Hz
Standard Equipment	Exhaust fan, exhaust pipe, water pump, air pump
Spare Parts	Reflective mirror, lens, laser tube.
Machine Dimension	800*450*285mm (31"*18"*11")
Machine Weight	45kg
Package	Fumigation free package
Packing Size	880*400*720mm, 480*330*350mm
Gross Weight	70kg
