Overview

Application:

It is used to make hardcover books, photo album and picture album.

Description:

. The machine includes a position area, corner cutter and electric edge folder

Feature:

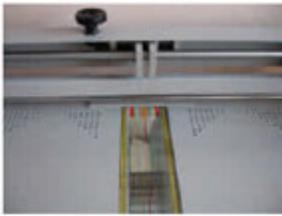

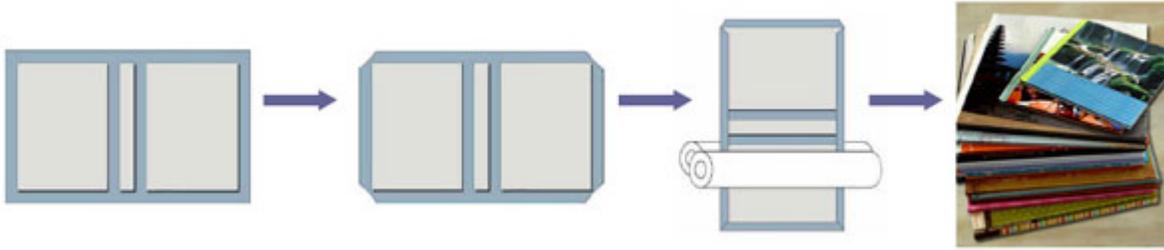

- . Flexible and fast change of different versions of spine guides which will make an easier process to decorate hard cases, hard book covers, CD's and DVD's boxes, photo albums, restaurant menus and much more.
- . The light table includes a center position line labels as reference, a mesh line to align a variety of formats so the placing of the material is more accurate and easier.
- . The cutter corner, allows cutting four corners of different thickness of cardboard in an even and accurate way.
- . User friendly electric edge folder, makes a standard hard cover.
- . The original design allows to create book covers and any hard case decoration, such as: , CD's and DVD's boxes, photo albums, restaurant menus and much more; you just need to change the two spine guides from `a` 8mm groove to a 3mm groove one.
