Overview

200 LPI printing lens sheets

As the 200 LPI lens sheets are quite thin, they are especially suit for high-precision, high-definition, smaller packaging products, its image is clear and detailed, could meet high-end packaging products demand.

- . Raw materials APET (non-toxic, harmless, highly transparent, customized by the Push Group)
- . 200 LPI lens are parallel the length direction
- . Viewing angle 46°, and visible from `the` 5.9"-19.7" (0.15-0.5m)
- . The best storage temperature is 23?-30?, the best storage humidity is 70%

Note:

3D effect is caused by the visual effect, so the 3-dimensinal effect of the 3D picture is not that obvious on screen. And the picture of the sample we offered here can not fully display the real 3D effect through computer, so please order the sample if you want to enjoy the real 3D effect.
