### Overview

- 95% is constructed with eco-friendly bamboo
- Superb stability with a small footprint
- Combines high functionality and low environmental impact
- Easy to set up and take down

Built of 95% bamboo, for ecological-minded people, these banner stands are dimensional, stable, and easy to install. With a pliable strength comparable to steel, bamboo has the viability to replace wood and metal components. These 'green' products offer the same high performance features as other banner stands.

**Application:** Ideal for indoor use in retail stores, salons and spas, hotels, showrooms and similar places.
