### Overview

**Application:**

The CW-5200-AK circulating cooling machine is designed to cool the spindle of the CNC engraver and cutting machine.

**Remarks:** The voltage of this cooling machine is AC220~240V and the frequency is 50Hz.

### Details

Main Application	cooling
------------------	---------

### Specifications

Model	CW-5200AK
Voltage	AC220?240V
Frequency	50Hz
Current	2.4?3.1A

Cooling Capacity	5084Btu/h
Refrigerants	R-22
Charge Amount	350g
Max. Pump Lift	100M
Machine Dimensions	55×28×43 cm
Machine Weight	31Kg
Package	Fumigation free case package
Package Size	72×44×62 cm
Gross Weight	37kg
