Overview

Our cartridges have a greater capacity than the originals, providing a longer lifespan and lower costs.

Features:

- Adopting the best specialized dye ink and high color saturation for a vivid image coloring, this cartridge is adjusted by a pantone color chart in order to provide accurate color restoration. It also features a wide range of colors and a very small margin of error that is easily adjusted by an ICC curve, according to standard ink color references.
- It features UV absorbing properties.
- The print head lifespan can be prolonged by having good fluency and an unclogged nozzle.
- Colors can be kept unfaded indoors for two years, or even longer, as long as the printed material has a coated film.
- This is a non-toxic, odorless and corrosion resistant part, and is safe to be put to use or kept in storage.
- Materials printed with this cartridge are fast drying, making this product ideal for mass production projects.
- IC chip included.

Average lifespan: 6-12months .

Character: Epson special piezoelectricity ink
