Overview

Description:

The transfer heat plate machine is portable and smart. It will leave a perfectly clear picture on the ceramic plate in two minutes. It can be used at malls, flea markets, shows, and similar places. The voltage can be easily adjusted with the electronic and digital control, therefore ensuring a reliable performance. The plate can be changed as many times as needed.

Features:

- The time and temperature can be integrated into `one` complete controller.
- It features a fully digital temperature controller.
- Voltage adjustment is automatic.

Notice: The case in which the machine is stored is available in different colors, which can be chosen according to your preference, as long as they are in stock. The machine color can be ordered, although a waiting period and an additional charge should be taken into consideration. This applies only to bulk orders.

Warranty & after-sale service

One year limited warranty; spare wearing parts do not apply.

24-hour technical support by email or telephone.

User-friendly English manual, explains how to operate the machine and the required maintenance.
