Overview

Features:

- Easy to transport - Super light weight!
- Compact size takes up little floor space.
- 4 Pockets allow many magazines to be displayed.

Description:

The A4 roll up literature stand is the lightest brochure display. Ideal for transporting on trains or aero planes as it simply rolls up and packs away in its useful carry bag that comes provided. This literature stand is designed to take A4 brochures or leaflets in portrait. For storage, it easily folds down into a compact size and can be kept in a canvas case.

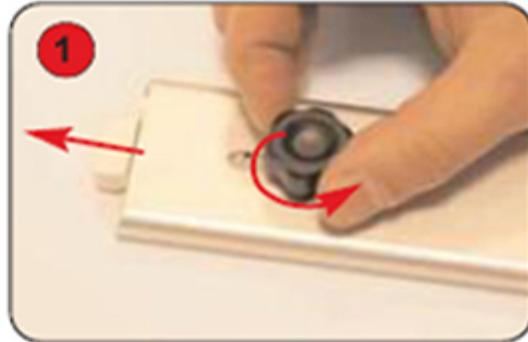

Application:

The Brochure Stand is ideal for displaying brochures, magazines and corporate literature in the office or at exhibitions and corporate events.

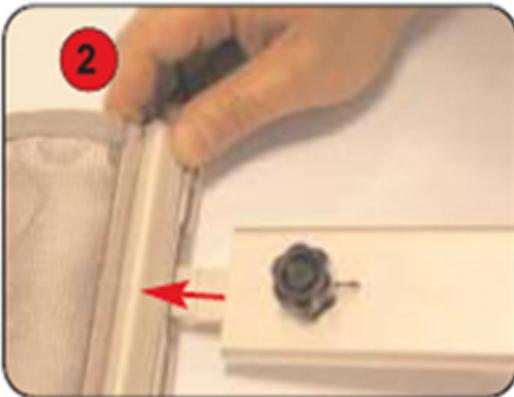

Setup Guide

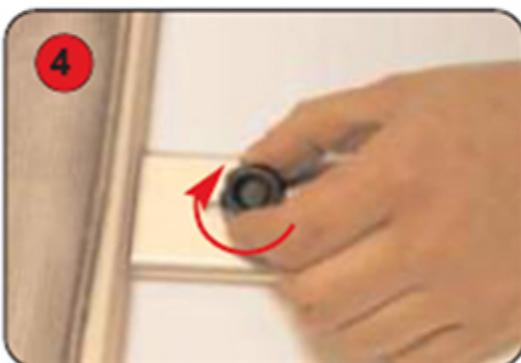

Kit includes: bungee pole, carry bag, fabric literature holder and stabilising foot.

1
Loosen the screw on the stabilising foot and slide out the extension.

2
Take the literature holder and slide the stabilising foot onto the extension.

4
Once the rail is centralised on the foot, tighten into position by

5
Open up the bungee pole and connect each part together.
