Overview

This plastic frame is an ideal way to display your prints. This plastic frame, also known as a picture frame or menu holder, features an economical design and is an effective way to present your advertisements and graphics.

This plastic frame is constructed by injection-moulded plastic.

This series of plastic frames is not as upscale as our other "frosted edge", hand-fabricated sign holders. This plastic frame has a slight blue tint, manufactured runs are not always 100% optically clear plastic. The plastic frame is designed to hold 210L*297W(mm) graphics and is ideal for displaying posters, pictures, menu cards and advertisements.

The plastic frame allows you to display advertising contents back to back. Display special promotions on one side of the frame, and upcoming events on the other! The plastic frame is an ideal countertop display stand.

Characteristics:

The plastic frame also permits fast and easy graphic changes as a result of its open top and side design. Prints can be inserted from the top or side in just seconds. The graphic will be securely held in between the two plastic panels.

Application:

This plastic frame is commonly seen in restaurants, offices, and retailers. No matter where it is placed, a plastic frame, such as this countertop holder, is sure to grab customer attention
