Overview

Ulstronic ink tank series product introduction:

. The ultrasonic series include: Ultrasonic Ink Supplier & Ultrasonic Ink Tank.

. This includes: Ultrasonic wave emitter, electric heating system, digital temperature sensor, timer or scheduler, and heat tracking devices.

. Upon starting the ultrasonic system, ultrasonic radiation is automatically applied to the ink, allowing the ink to maintain its finest state by breaking apart pigment molecule clusters, creating cavitation and vacuum within the clusters.

. By using vibration inside the ink all the common problems of clogging and uneven concentration are prevented and the ink in its best possible state and ready for use.

. The ultrasonic ink-supplying system uses an electrical heating method that enables printing in winters with the same, fabulous effects as in other seasons.

The amazing effects of the ulstronic ink tank series product:

- Protecting the printheads from `blockage` and thus extending their life.
- Stopping clogs, clusters, or uneven concentration of pigment molecules in solvent from forming.
- Preventing clogs, or unestability of the ink while printing.
- Using the ultrasonic splicing system to make pigment molecules smaller, more refined, and thus creating more vivid images.
- Maintaining the temperature in the ink tank in the ideal temperature range.

Effectively solve the problem of printhead blockage, magic ultrasonic ink supplier, present gorgeous image, 7 Patented copy rights, solve printing difficults.

Specifications

Specifications					
Model NO.	UT3.5-4	UT3.5	UL3.5	UT1.3	UL1.3
Power	AC220V<4A	AC220V<1A	AC220V<1A	AC220V<1A	AC220V<1A
Ultrasonic Wave Power	200W	55W/unit	55W/unit	30W/unit	30W/unit
Heating System Power	80W	20W/unit	—	15W/unit	—
Ink Temperature	Temp adjustable	Fixed Temp: 28°C -38°C	No Thermostat	Fixed Temp: 28°C -38°C	No Thermostat
Quantity of Ink Tanks	4 tanks/set	4 tanks/set	4 tanks/set	4 tanks/set	4 tanks/set
Ink Tank Capacity	3.5L*4	3.5L/unit	3.5L/unit	1.3L/unit	1.3L/unit

Running Procedure	Automatic/ Running Procedure and ink Temperature adjustable	Automatic/ Ultrasonic 5Min/ Suspend 60 Min			
Price (USD)	897.00/set	132.00/unit	118.00/unit	74.00/unit	59.00/unit
