The exchange rate applicable to your transfer appears above. Most money transfers are converted into payment currency at the time they are sent. However, in a few countries, local regulations require money transfers to be converted only when they are paid. If you are sending to one of those countries, the exchange rate noted above is only an estimate, and the actual exchange rate will be determined at the time of payment. Asked your agent if you have questions about the exchange rate applicable to your transfer.
