

PVC Celuka Foam Board

Item Code:CS-SJ-PVC-FB-A

Description:

PVC foam board has a very fine and homogenous cell structure, which is the reason for its extremely flat and smooth surfaces. The board core with UV blocker increases the UV resistance.

It has been designed to provide the user with perfect surfaces for a variety of applications. This is why we offer different types of sheet materials.

Features:

- . Lightweight.
- . Harder surfaces.
- . Homogeneous cell structure
- . Difficult to ignite and self-extinguishing.
- . Suitable for indoor and outdoor use.
- . The widest range of thicknesses and sheet sizes.

Application:

- . Signage (interior and exterior).
- . POS /POP displays.
- . Stand and exhibition booth building.
- . Mounting of pictures and prints.

. Shop fitting and interior design.

. 3-dimensional applications.

Colour:
