Badge Making Machine Installation

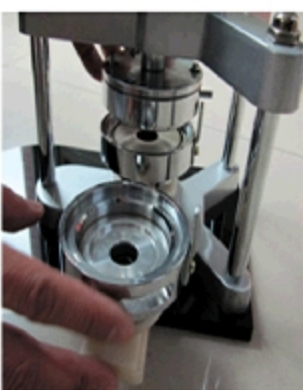

- 1) Machine Body
- 2) Handle
- 3) Left Mould
- 4) Right Mould
- 5) Upper Mould
- 6) Hexagon Spanner
- 7) Pin

▲Left mould and right mould are bottom moulds

Step1: Fix the handle

Fix the handle on the machine body

B. Up the upper mould then put the bottom moulds through the slide through

1. When you push the bottom moulds left to right, the left mould and the upper one not face to face, using the Hexagon Spanner to relax the mould, then using hand to control the mould, make the mould face to face, same of the right mould

Step2: Fix the mould

A. Press the the handle and meanwhile insert the upper mold into upper hole

C. Put the pin in the left mold of the slide board

if the upper mould become less
1. crowded, using the hexagon spanner to screw it. 2. take the upper mold, put 1/2/3 dots on one line and crowded.

▲when received the machine, if it working, don't adjustment the machine.
