

>> Photobook Station

Creasing, Gluing, Photo mounting and Pressing in one machine

PBS18

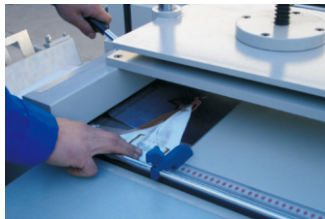

PBS18Q

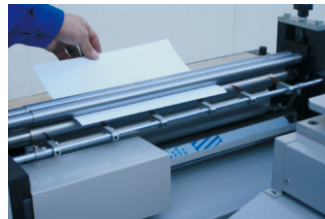

PBS18R

- ◆ Suitable for making album, menu and other kinds of individualized photo album etc.
- ◆ Calculated creasing guarantee the printed photos folding easily and no crack.
- ◆ Motorized gluing machine apply the glue on the photopapers and cardboards evenly.
- ◆ Table for photobook mounting, to mounting photos and to form the album;
- ◆ Stainless steel made book pressing part for glue-drying;
- ◆ Fast and easy to operate system;
- ◆ Compact designed, all in one solution with small dimensions, friendly to be used and maintained.
- ◆ PBS18 is operated by foot pedal, PBS18Q & PBS18R are pneumatic type which needs air compressor to operate.
- ◆ PBS18R adopts microthermal heating guling machine, the glue application roller and glue reservoir adopt advanced copper alloy processing technic which makes the heat conduction well-distributed, external automatic water refill device.

Specifications

Model	PBS18	PBS18Q	PBS18R
Creasing width	460mm	460mm	460mm
Gluing width	500mm	500mm	500mm
Adhesive	White latex	White latex	Hot-melt glue, White latex
Adhesive heating	—	—	Water heating
Max. photo size	500mm	500mm	500mm
Max. flatten area	350×470mm	350×470mm	350×470mm
Max. flatten height	80mm	80mm	80mm
Occupy space	1m×1.1m (1.1m ²)	1m×1.1m (1.1m ²)	1m×1.1m (1.1m ²)
Power supply	220V / 110V (Optional) 120W	220V / 110V (Optional) 120W	220V / 110V (Optional) 120W
Machine weight	140kg (Main part)	140kg (Main part)	140kg (Main part)
Machine weight	88kg (Gluing part)	88kg (Gluing part)	105kg (Gluing part)
Machine dimensions	1100×560×1280mm (Main Part)	1100×560×1280mm (Main Part)	1100×560×1280mm (Main Part)
Machine dimensions	850×400×1080mm (Gluing part)	850×400×1080mm (Gluing part)	900×450×1350mm (Gluing part)
