

ENGRAVING MACHINE

# M20 PIX

# M20 Pix

## PHOTO ENGRAVER, IDEAL FOR:

- METALLIC GIFT ITEMS, SUCH AS LIGHTERS, KEY CHAINS AND GIFT BOXES.

- METALLIC MEDALS, PENDANTS AND JEWELRY ITEMS.

■ **Personalisation equipment** , specially-designed for picture and text engraving.

■ Suitable for metallic surfaces, whether flat, convex or concave.

■ The **complete pack** includes the engraving machine (diamond marking technology), QuickPix software (Windows® compatible) and accessories.

■ All regular image formats can be used (.bmp, .jpg, .gif or .tiff) from scanners, digital devices or USB drives etc. **QuickPix makes importing the image and preparing the engraved design quick and easy.** The software calculates the dots to engrave for you.

■ **User-friendly:** the image and text are positioned very easily on the object to engrave. The job may be simulated thanks to an integrated laser pointer.

■ **The engraving process is automatic,** the diamond tip is robust and long lasting. The M20Pix diamond marking technology ensures that your engraving is high-precision, high-quality and will not wear off over time.

■ Personalise jewelry or a key chain with a picture, the owner's initials or any other text to make your object precious and unique.

■ Engraving on gold, silver, copper, platinum, aluminium, stainless steel, etc.
