Adjust the switch on the back to make 3, 6 or 9 lamps working at the same time.

Attachment of a fan, increase 20%-30% efficiency.

Quicker flash time and very even heating.

360 degree level swivel head.

Max temperature 200 degree

Products Parameter

IR Lamp: 9 pcs

Power: 6.3 kw

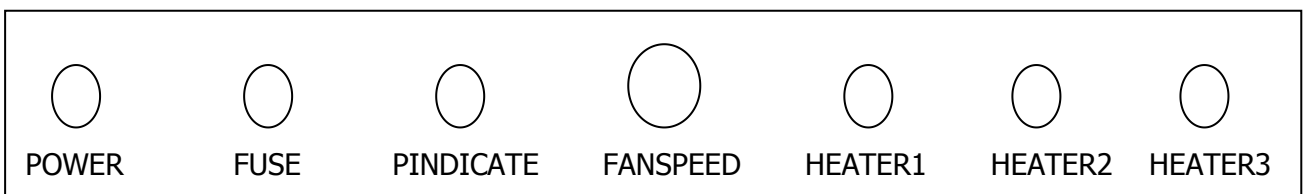

Max temperature 200 degree

Power supply: 220 V 50 Hz single-phase

Dimension: 1000 x 800 x 500 mm

Gross weight: 80 kg

Control Panel

Voltage: 220 V single-phase

Heating pipe: 700W per piece

Power : main power switch

Fan speed : regulate air quantity

Heater1:: regulate 3 heating pipes inside of the heating oven

Heater 2: regulate 3 heating pipes in the middle of the heating oven

Heater 3: regulate 3 heating pipes outside of the heating oven

Requirement for connection:

Use the power line of 6 mm² thickness

L: live line

N: null line
